

Radiopharmacology & Radiopharmacy

Preconference Workshop

A combined workshop on radiopharmacology and radiopharmacy will be held at the **18th International Symposium of Radiopharmaceutical Sciences (ISRS-18) in Edmonton, Canada, July 12, 2009 from 1-5 pm.**

The workshop will discuss tools useful in drug discovery, quality control and regulations.

Presentations:

Kooresh Shoghi (US): MODELING AND USE OF QUANTITATIVE PET IN SMALL ANIMAL IMAGING

J.L. Vanderheyden (GE): HOW IMAGING IS USED IN PRECLINICAL DRUG DEVELOPMENT

Cecilia Giron (Italy): RADIOPHARMACEUTICAL PHARMACOKINETICS IN ANIMALS—CRITICAL CONSIDERATIONS

Tim McCarthy (Pfizer): THE USE OF IMAGING IN CLINICAL DRUG DEVELOPMENT

Clemens Decristoforo (EANM): EU Regulatory Update

Steve Ziegler (Siemens): INSTRUMENTATION & RADIOPHARMACEUTICAL VALIDATION

Jan Passchier (GSK) : RAPID HPLC: SEMI-PREP; QC & METABOLITES

Daniel Skovronsky (Avid): x-IND; US CLINICAL TRIALS

Presentations will leave time for discussion. The date and location of the workshop were chosen to facilitate attendance prior to the ISRS-18.
